**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I switched to sonic as my broadband internet provider last year and can tell you that not only is it the cheaper service but also, by far, the best and most reliable. Over the past decades I have contracted with both att and comcast and was always dissatisfied with their price points and quality of service that they provided. For decades they were an effective check against competitive markets. I vote for candidates that support net neutrality and consumer protections. I do not want the 1996 telecommunications act modified and prove as false the claim by us telecom that customers like myself would not be affected by the proposed changes. I urge you to reject this anticompetitive proposal.

Thanks,

Rob Egan
